

Pipettor tips, barrier, ART®, reload packaging

- 100% protection against carry over contamination: MBP aerosol resistant tips (ART®) feature a patented, self-sealing barrier that traps aerosols and liquids preventing them from reaching the pipettor
- Compact design and easy operation
- Environmentally friendly packaging
- Sterile, barrier tip reload system combines individually packaged blister tubs made of recycled plastic and new hinged racks
- The push down blister tub easily inserts the ART® barrier tips into the hinged racks providing stackable space saving racks that offer easy, one handed use
- Empty hinged rack part numbers allow for easy conversion to the ART® reload system
- ART® tips are presterilised and certified RNase, DNase and pyrogen free
